

# Gustavo Marangoni

202-439-7615 / Washington, DC 20016  
guga.uy@gmail.com / <http://linkedin.com/in/gustavo-marangoni-414abb26a>

## Executive Summary

---

- Proficiency in R, STATA, Excel, Dedoose, and Qualtrics
- Experienced in literate programming, data wrangling, data tidying, and data visualization
- Proficiency in R Script packages: tidyverse core, ggplot2, rvest, purr, kableExtra, forecast
- Leadership, collaboration, and problem-solving skills in team projects
- Great attention to detail and expertise in quantitative research
- Excellent interpersonal and communication skills
- Fluency in English, Spanish, and Portuguese

## Education

---

**American University, School of International Service** Washington, DC  
MA in International Relations / Global Governance, Politics, and Security. 2026

**University of Virginia, College at Wise (UVA-Wise)** Wise, VA  
BA in Government with a concentration in Foreign Affairs. GPA: 4.0 2024

**Oakland City University** Oakland City, IN  
Coursework in History with concentration in Global Studies. 2022

## Skills

---

### Technical:

- R (tidyverse, ggplot2, dplyr, tidyr, purrr, haven, readxl, modelsummary, patchwork, knitr, Quarto/R Markdown)
- Data collection: Web Scraping, building datasets, working with survey data (Latinobarómetro, Qualtrics)
- Data Wrangling: data importing, cleaning, reshaping, joining datasets, handling missing data
- Data Visualization: ggplot2, custom themes, multi-panel figures (patchwork), publication-ready graphics
- Statistical Analysis: OLS regression, linear probability models, descriptive statistics, regression tables
- Reproducible Research: Quarto, R Markdown, PDF/HTML/Beamer output
- Database Management, CRM Softwares, Microsoft Office, Dedoose, Stata, Qualtrics
- Translation of documents, quantitative and qualitative research, writing, conducting team projects

### Languages:

- Portuguese – Native speaker
- Spanish – Native speaker
- English – Fluent
- Mandarin Chinese – Beginner to Intermediate level

## Data Analysis Projects

---

### U.S. Senate Legislative Priorities Dataset — R Script, Quarto, rvest, tidyverse, ggplot2

- Built an original dataset on 56 U.S. Senators by ethically scraping C-SPAN using a custom R function with randomized request delays
- Cleaned and merged data on party affiliation, bills sponsored, and policy areas, then visualized partisan differences using ggplot2

### Brazilian Foreign Policy Attitudes — R, ggplot2, Latinobarómetro, Quarto, modelsummary, patchwork

- Analyzed 2023 Latinobarómetro survey data to examine how partisanship and presidential approval shape Brazilian public opinion toward the United States and China ahead of the 2026 presidential election
- Built custom country-coded plotting functions using tidy evaluation with distinct US (blue) and China (red) color schemes to visually differentiate great power comparisons across slides

- Produced a professional Beamer slide deck in Quarto with formatted regression tables using modelsummary and multi-panel visualizations using patchwork

**Latin America in Focus (LAF) Podcast Viewership Analysis** — R, tidyverse, ggplot2, kableExtra, forecast

- Conducted a full stagnation analysis on 230+ podcast episodes using Apple/Simplecast data, tracking plays, completion rates, follower trends, and platform downloads from 2020 to 2026
- Categorized all episodes into 14 topic areas and built a time series decomposition to identify when listenership began stagnating and produced retention diagnostics flagging low and high-performing episodes with color-coded kableExtra tables

**Determinants of Foreign Direct Investment Inflows** — Stata, cross-sectional analysis

- Built an original dataset combining World Bank and UNCTAD data on 186 countries to examine whether governance indicators explain variation in FDI inflows in 2023
- Ran two OLS regression models testing the effects of corruption control and political stability on Foreign Direct Investment

**Professional Experience**

**Council of the Americas** **Washington, D.C**  
**Policy Intern** **January – May 2026**

- Analyzed data from the organization's podcast and delivered results through a presentation
- Created a dataset on Latin American countries' trade relationship with the U.S
- Assist with developing briefs covering different Latin American events in the U.S. and the region
- Assist with programming events, including events with Latin American Heads of State, U.S. Government officials, and Senior Corporate Members

**American University** **Washington, D.C**  
**Data Analysis Teaching and Research Assistant** **2024-Present**

- Assist students with R Script and tidyverse core packages  
Grade assignments and assist on "Essentials of Economics and Data Analysis" and "International Affairs Stats and Methods"
- Assist Dr. Austin Davis with research related to Data Analysis and International Economics

**BPTax Global Advisory** **Montevideo, Uruguay**  
**Back Office Assistant** **June-August 2022**

- Systematized offshore companies' information on CRM software
- Created and organized more than 1,000 companies' capital and financial information on Microsoft Excel database

**La Clínica del Pueblo** **Washington, D.C**  
**Research Assistant** **Winter 2025-2026**

- Developed a codebook and an 8-page report on campaign for injectable PrEP and delivered recommendations
- Trained co-worker on Dedoose, qualitative coding, and conducting qualitative research

**American University Practicum** **Dar es Salaam, Tanzania**  
**Consultant for Muhimbili University of Health and Allied Sciences** **May-August 2025**

- Developed a codebook and a 61-page document on Exploring Opportunities and Barriers to Funding HIV Services in Tanzania in collaboration with Muhimbili University of Health and Allied Sciences
- Delivered recommendations for NGOs, local governmental organizations, and to Muhimbili University of Health and Allied Sciences

**Leadership Involvement**

**American University Graduate Leadership Council (GLC)** **Washington, DC**  
**Vice President of Finance** **2025-Present**

- Elected to handle a budget of around \$46,000 allocated to Graduate Student Councils, the Travel Grants program, student-led clubs, and direct purchases for the council
- Tracked budget spending with Microsoft Excel
- Organized a 400-person school-wide End-of-Year-Gala
